Budget in Brief

FY2025 MAY 1, 2024- APRIL 30, 2025

CITY MANAGER BUDGET MESSAGE

I am pleased to present the City of Bloomington's balanced budget as adopted for Fiscal Year 2025, a robust budget prioritizing Public Safety, Roads and Sidewalks, Dependable Infrastructure (clean water), and Public well-being (Parks/Rec, Culture, Entertainment). This forward-looking budget not only addresses the immediate needs of the coming year but also lays the groundwork for future community needs. Strong revenue streams have enabled the City to invest significantly in these critical areas while maintaining financial stability. With nearly \$89M allocated for capital projects, this budget is strategically designed to meet the needs of our residents and businesses, fostering a prosperous and growing community.

The FY2025 Budget totals \$331.7M, which is the largest budget the City has adopted. This budget incorporates many initiatives put forward by the Council and the community including funding public safety pensions at 100%, continued paying cash for equipment in the General Fund (removal of dependence on borrowing), increased emphasis on streets and sidewalks, accelerating sewer and storm water management projects, addressing other environmental concerns such as adding EV charging stations and improvements related to quality-of-life needs. These initiatives represent the continued execution of the future vision set forth by the community.

This is the final of six budgets that I have delivered to the City. During this time, financial positions have improved as evidenced by increased reserves and a bond rating upgrade. The City has made major strides in addressing the direct concerns of the community with additional dollars directed toward flood and storm water management, further allocation of resources toward public safety and agreeing as a community to support the costs needed to restructure the water distribution system. I am proud to have been a part of such great City enhancements as the Bloomington Public Library Expansion, the O'Neil Park and Pool Renovation and the pending Downtown Streetscape. All will have impacts on the quality of life of our residents for generations to come. We have taken these steps forward with an honesty and transparency to the community it deserves. While not all decisions were unanimous, I am proud that we found a way to come to consensus – and get the business of the City done.

I close this final budget with a gratitude and humility to have been a part of this great organization and great community. It is with all sincerity; I wish the City of Bloomington blessings and prosperity.

Thank you,

Tim Gleason

City Manager

FORECASTING THE FUTURE

While every attempt is made to accurately project the City's finances and set aside appropriate levels of reserves, the City continually monitors both internal and external financial activities, with an emphasis on:

- Rising prices related to inflation and supply chain issues.
- State imposed unfunded mandates and regulations impacting local governments.
- Stability of the City's large employers.
- Escalating housing crisis and the impacts of a growing unhoused population.

These issues pose potential obstacles to the growth and prosperity of the City. However, through the unified efforts of the City's Council, Staff and Residents, courses of action will be determined that will keep the City on a solid path of success and fulfilment for its members.

THE BUDGET PROCESS

The City of Bloomington adopts its budget in accordance with Chapter 65 of the Illinois Compiled Statutes. The City's Fiscal Year runs from May 1-April 30. Formulation of the budget is a critical & difficult process that involves analyzing resident input & data, projecting available revenue sources, identifying priorities, allocating resources & expenditures, reviewing City performance data, negotiating & anticipating department budgets, & establishing the fees, charges, & taxes necessary to provide adequate levels of services to the residents of Bloomington. The budget process is continual year-round.

THE GENERAL FUND OVERVIEW

The General Fund is the primary operating fund of the City. Included are police & fire protection, parks & recreation, legal, planning, economic development, general administration of the City, & any other activity for which a special fund has not been created. The water, solid waste, sewer, storm water, golf operations, Arena, & Abraham Lincoln parking funds are expected to be self-supporting, so the revenue from & expenses incurred by these funds are excluded from the General Fund. Revenues that exceed the cost of providing General Fund services are added to the General Fund Unreserved Fund Balance. This excess revenue can be used to finance future capital improvements & provides a reserve for emergencies.

ADDITIONAL BUDGET RESOURCES

In addition to the Budget in Brief, the City produces 2 larger budget books. The 1st titled "Budget Overview & General Fund gives a brief overview of the City including: a narrative about the City, City Council information, total revenues and expenditures for all city funds and a narrative and budget reports for all General Fund Departments. The 2nd book titled "Other Funds & Capital Improvement" speaks to non-general fund department budgets, capital equipment and capital projects that have been budgeted for the upcoming fiscal year.
