

2019 Construction Season Street Resurfacing Program

Street: Market Street

Starts: Howard Street

Ends: Roosevelt Street

Reasons for inclusion in the Resurfacing Program:

- Poor pavement condition (Rating: 3 or 4 out of 10, depending on block)
- Arterial street with high traffic volumes and significance to overall traffic network
- Efficiency of paving work (located adjacent to other work on Catherine, Mason, and Mulberry)
- Heavy Transit corridor
- Gateway entrance into Downtown from the west
- Suggested location for Complete Streets improvements in the McLean County Regional Planning Association's Complete Streets Implementation Plan: also upgrading sidewalk ramps and completing other spot sidewalk repairs
- Last paved 1997 (22 years) according to best available records
