## Bloomington Streets

The City of Bloomington created this web page to focus primarily on upcoming street/sidewalk projects funded through Local Motor Fuel Tax (LMFT). This is in addition to signage, flyers, social media posts, and press releases the City will provide in order to keep the public informed about street maintenance projects in the City. The revenue generated by the now eight-cent LMFT, and one-quarter of one percent of the Home Rule Sales Tax, is kept separate in a special fund that can only be utilized for this work.

**Local Motor Fuel Tax and Home Rule Sales Tax collected in FY2021 to date total \$878,060 and expenditures total \$149,886.** Please note, there is a time lag between when LMFT is collected and when it is reported.
